**COST:** \$40 (4 classes plus cost of materials)  
**Coordinator:** Tammy Orkwis (mom of two SHS students)

What oozes between your fingers, yet doesn't stick to your skin?  
What acts like a liquid, but appears solid?

What comes in lots of colors, can glow in the dark, and involves Chemistry? **SLIME!!!**

Come make all different kinds of slime and take home cool concoctions every week!

Making slime making is not only fun and relaxing, but also provides a platform for learning many important chemical principles. Learn about viscosity and more in Slime Science!!
